SUMMER FLEET READINESS CHECKLIST

A few hours of preparation now can save days of downtime in January.

- [ ] Book a pre-summer service for every car in the fleet
- [ ] Check tyres, brakes, steering and seat condition
- [ ] Inspect chargers, leads and plugs, and keep charging bays clear and ventilated
- [ ] Confirm battery health and charging routines with your service partner
- [ ] Review GPS and fleet management settings, including wet-weather course access
- [ ] Brief casual staff on daily checks and how to report a fault
- [ ] Confirm your service partner's contact details and response times for peak periods
- [ ] Plan for fleet renewal if your cars are approaching end of life
